

## **Custom Propagation Plant Material for 2009**

**Herbs, Perennials, Groundcovers  
Ornamental Grasses, Flowering Shrubs**

## Blooming Nursery Liner Products

Blooming Nursery offers liners and plugs on a year-round basis, although availability changes considerably throughout the year. Our standard plug and liner sizes are offered in a 1¼" plug, or 2" and 2½" pots. We also offer a few varieties in a root trainer 2" deep plug size.

We pride ourselves on supplying high quality liners to other growers. In the interest of supplying well-timed, vigorous liners we are now tailoring propagation to your specific needs, in addition to supplying a smaller inventory of liners grown for the speculative market, as always.

The items listed in this brochure (booklet) are many of the plants we maintain stock of and may be able to propagate and supply to you for your growing-on needs. Not all will be offered at the same time; some plants can only be propagated at certain times of the year.

## Custom Propagation and Growing Services

If you need at least 200-400 plants of a single variety, we can usually supply your needs through a custom order. If you place the order well in advance and we're able to schedule your plants with other orders or our own production, we may be able to provide the order with a lower minimum. Give us a call or send us a list of what we can grow for you!

We require at least 10 weeks grow time and in some cases up to 6 months depending on variety. All custom orders must be shipped within thirty days of scheduled delivery date or a holding fee may be assessed. A 25% non-refundable deposit and custom crop agreement is required prior to propagation.

Size	Description
96 Plug	Recommended for potting into 3" and up to 1 gallon. Billed for 94 per tray. 1¾" x 2½" deep Plug Tray
2" Liner	Shortens finish time by 20-50% over conventional 72 cell plugs! <i>(Definitely our best value and a customer favorite)</i> 50 per flat. 2" x 2" deep Individual band pots
2½" Liner	For plants requiring a larger soil volume; promotes vigorous root development 36 per flat. 2½" x 2¾" deep Individual band pots
